Ferdinand.Kopp@eeas.europa.eu

Hallo! My name is Ferdinand Kopp. I am 50 years old. After my studies of law and 11 years in national administration, I joined in 1997 the Commission. On 1.1.2011, as many of you, I was transferred to the EEAS without having been asked.

I like the field of external relations to third countries, the diplomacy and the field of cooperation. Therefore, I am really interested that the EEAS becomes a success and enables Europe to be the global player which it and its peoples earn. I am convinced that the key to the success will be a motivated, happy and well-treated staff.

The trade unions and the staff representation are important instruments to clarify to the administration where the needs and margins for improvements are. My ambition will be to defend the legitimate rights and interests of all staff in EEAS as much as possible.
