

Christoph SORG

Hello !

I joined the Institutions about 12 years ago, out of which 7 were in the External Service. Like most of you, I have served abroad and still benefit every day from the exciting experience of a 4,5-year- posting in an EU Delegation.

Since my first days as EU fonctionnaire I chose to join a Trade Union, as before in my previous job I also used to be a proud member. My background is Public Administration/Finance and I speak the three working languages.

Why I put forward my candidacy: We all need to be engaged! .. but not everybody can/wants to be a Staff Representative.

What are my priorities: Unification of staff accross all categories, maintaining the EEAS as attractive and prestigious employer

What will be my pet subjects: careers and working conditions

My commitments (availability...): to attend Staff Rep meetings and committees, to have open ears for concerns of staff and to be a honest broker.
