

Andrea Janoha – **Near You**

Dear Colleagues,

I have worked in Jordan and Barbados as a Contract Agent for the past eight years. I have been a staff representative since 2004 and since 2009 I have been a member of the CLPHU under the USHU quota. Within the CLPHU I specifically worked as a member of the Joint Local Agents Promotion and Reclassification Committee and the Joint Training Committee.

As a union member I have been actively involved in all past and ongoing negotiations affecting the amendment of the Staff Regulations and the formulation of the General Implementing Provisions for Contract Agents.

My extensive grass root experience as staff representative in Delegation represents a valued asset which effectively supports my daily battles in support of individual and general staff matters.

It goes without saying that I have assisted colleagues from every staff category and from many different units and countries which has allowed me master every relevant legal framework; be it the Specific Conditions of Employment and the Framework Rules for Local Agents, the General Implementing Provision for Contract Agents and the Staff Regulations for Officials, Local Staff and Contract Agents.

I am honoured to be part of **Near You**; a collection of very experienced and competent staff representatives who, all together, represent the best possible and most effective proposal in terms of reliability, sharpness, insight and uncompromising commitment.
