I am a local agent working for the European Commission **in the New Delhi (India) Delegation** for the last 14 years and have been a local staff representative in my Delegation for more than 10 years. I became a Member of the "Outside the EU" Section of the Staff Committee in 2009 for the first time.

The first 3 years as a CLPHU member have been very challenging. These three years were perhaps the most difficult time for the staff committee as it saw probably the worst economic crisis in Europe's history, and secondly, the creation of EEAS. The CLPHU faced these challenges daringly and fought for the rights of the staff in Delegations through out. Some were resolved successfully and some are on-going. The worst is not yet over and we all need to face this rough situation as a team keeping the interests of the staff on top. We need your support to fulfil the ambitions. Only a **good and coherent team** that USHU and allying trade unions have put together is the guarantee that these qualities will remain Section's fundamental value and its strongest feature. For this, we need your support: to be able to continue working and make progress on the most burning staff issues.

The fight has to continue!

I am running this election with my partner Aminata ONGOIBA of the Bamako Delegation. I ask you to support NEAR in the elections and give us a chance to continue and improve our work for and with you.
