

Frank Neisse

I am a Political Advisor in the Civilian Conduct and Planning Capability.
I have a Master's in Political Science and International relations.
I started my career in the European Institutions in 2009, after having worked for the French public administration as well as for UN peace-keeping missions.

I speak French, English, German & Italian and I love skiing.

I am French and German. My first job within the EU was at the EU Joint Situation Centre (Council General Secretariat) as an established official. I have just joined the CPCC and I am an alternate member of the Management Board of the Sickness Insurance Scheme.

Actually, I never thought that one day I would be willing to join staff representation but the state of play of the EEAS has challenged me to do it. The EEAS has not yet been able to develop into a coherent and effective organisation. Fundamental issues such as equal treatment, transparency, particularly with regard to recruitment and mobility, the existence of a competent management and accountability, remain open. Team spirit is nonexistent. As such, I want to get involved in order to influence the ongoing debate and prevent an inevitable deterioration of working conditions if the personnel representatives do not have a sufficient political weight and legitimacy.
