

Evgenia Karatari

I work in the Analysis Division of the EU Situation Centre.
I started my career in the EU 20 years ago, after having worked for the shipping industry in Greece.

I speak Greek, English, French & Spanish and I have a keen interest in EU's external relations and international affairs.

It is the first time I am joining staff representation and I believe that the EEAS staff deserves the effort.

We all, transferred to this new EU body, deserve

- good working conditions
- rewarding career development
- fair and transparent evaluation

I intend to work in this direction.
